

APD LIMITED
Environmental Policy
- Statement of Intent-

As our Mission and Vision Statements provide, the Nassau Container Port seeks excellence in all areas of its business; we are committed to being the "greatest little Port on earth". This includes our commitment to environmental performance. The Nassau Container Port therefore seeks to minimize any adverse impacts of operations on our neighboring communities and the environment as a whole.

The Port's commitment is to:

1. Manage business activities in such a way as to promote best environmental performance and to introduce proven environmental management best practice into business operations.
2. Conduct business operations in such a way to prevent pollution.
3. Comply as a minimum with all relevant environmental legislation as well as other environmental requirements to which the business subscribes.
4. Manage waste generated by business activities according to the principles of minimization, re-use and recycling and where needed dispose of the residual waste in a responsible manner.
5. Improve energy efficiency and look to minimize the amount of carbon emissions released to air resulting from operations.
6. Give consideration to environmental issues and energy performance in the construction and use of buildings and other infrastructure.

To meet these commitments the Port will:

1. Allocate sufficient resources for the effective direction and implementation of the Environmental Policy.
2. Communicate the importance of environmental issues to personnel and promote a business culture whereby everyone within the Port regardless of role or position is encouraged to take responsibility for their actions and the environmental impacts they have.
3. Promote environmental awareness and the importance of environmental issues to contractors, tenants and others who have an interest in our business.
4. Set and monitor key objectives and targets for managing environmental performance.
5. Communicate internally and externally the Port's Environmental Policy and performance on a regular basis and encourage feedback.
6. Review the Environmental Policy regularly.

Michael J. Maura, Jr.
President, CEO
